STUDENT VOICES

Three countries, one smooth journey

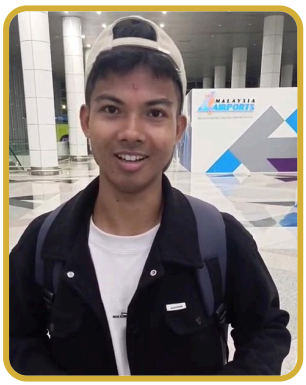

Students from Zimbabwe, Nepal and Pakistan flew to Malaysia with UNICE. Before landing, they had never met our team face to face: every step happened online, through our app and our step-by-step guidance. The first handshake was at the airport.

UNICE Education guided me through everything, from my admission to my arrival in Malaysia. I followed every update on the app, paid my tuition fee directly to the university, and when I landed, the UNICE team was already waiting for me at the airport.

Students pay universities directly. Tuition and EMGS fees always go straight to the university. UNICE never collects them, and we ask our partner agents not to collect them either.
